Experience

DATA SCIENCE CONSULTANT

Sep 2024 - Current

Management Solutions GMS

São Paulo, Brazil

- Developed and optimized credit risk models, processing large datasets to assess default probabilities.
- Built and analyzed classification trees and other statistical models with Python to evaluate credit risk metrics.
- Conducted exploratory data analysis and feature engineering to improve the accuracy of models.
- Contributed to the development of a Retrieval-Augmented Generation (RAG) model on LangChain, enhancing data-driven decision-making.

JUNIOR DATA ANALYST

Mar 2024 - Sep 2024

Seed Digital SA

São Paulo, Brazil

- Analyzed data collected by digital sensors to identify trends and generate practical insights.
- Built and refined forecasting models using Facebook Prophet to support business decision-making.
- Used statistical and machine learning techniques such as outlier detection and exponential smoothing to improve predictive accuracy and deliver best solutions to clients.

Education

UNIVERSIDADE ESTADUAL PAULISTA

Mar 2024 - Sep 2024

Master of Science (Physics)

São Paulo, Brazil

UNIVERSITY OF BRASILIA

Aug 2017 - Dec 2021

Bachelor of Science (Physics)

Brasilia, Brazil

University Projects

SCIENTIFIC INITIATION SCHOLARSHIP PROGRAM

Aug 2019 - Dec 2021

- Conducted research on particle physics and mathematical physics.
- Worked on developing theoretical models and analyzing results, regularly presented progress and findings to the research group and others during workshops.
- Developed and optimized code using Fortran and Python, working with numerical methods and scientific computing tools for data presentation such as NumPy, Pandas and Seaborn.

Certificates

AWS CLOUD PRACTITIONER

Nov 2024

- Foundational knowledge of AWS cloud services, architecture, security, and pricing models. Capable of explaining the business value of AWS and operating within the AWS ecosystem.

IBM DATA SCIENCE PROFESSIONAL

Jul 2024

- Hands-on program covering data science fundamentals, including Python, SQL, machine learning, and data visualization. Built and deployed projects using real-world datasets and industry-standard tools.

Additional

Language Skills: Portuguese (Native), English (C2), German (B2)

Technical Skills: Python, SQL, Databricks, Power BI, Git, Hugging Face, PyTorch, SageMaker

Volunteer Experience: Tutor during the IV Summer School of ICTP-SAIFR for Young Physicists teaching students fundamentals of physics and algorithms for scientific research.

Interests/Hobbies: Marathon running, language learning, digital drawing and illustration.
