

# Alisson Silva

São Paulo, Brazil • +55-(61)-993273697 • alisson.silva.global@gmail.com

## Experience

### DATA SCIENCE CONSULTANT

Sep 2024 - Apr 2025

Management Solutions GMS

São Paulo, Brazil

- Developed and optimized credit risk models, processing large datasets to assess default probabilities.
- Built and analyzed classification trees and other statistical models with Python to evaluate credit risk metrics.
- Conducted exploratory data analysis and feature engineering to improve the accuracy of models.
- Contributed to the development of a Retrieval-Augmented Generation (RAG) model on LangChain, enhancing data-driven decision-making.

### JUNIOR DATA ANALYST

Mar 2024 - Sep 2024

Seed Digital SA

São Paulo, Brazil

- Analyzed data collected by digital sensors to identify trends and generate practical insights.
- Built and refined forecasting models using Facebook Prophet to support business decision-making.
- Used statistical and machine learning techniques such as outlier detection and exponential smoothing to improve predictive accuracy and deliver best solutions to clients.

## Education

### UNIVERSIDADE ESTADUAL PAULISTA

Mar 2024 - Sep 2024

Master of Science (Physics)

São Paulo, Brazil

### UNIVERSITY OF BRASILIA

Mar 2024 - Sep 2024

Bachelor of Science (Physics)

Brasilia, Brazil

## University Projects

### SCIENTIFIC INITIATION SCHOLARSHIP PROGRAM

Mar 2024 - Sep 2024

- Conducted research on particle physics and mathematical physics.
- Worked on developing theoretical models and analyzing results, regularly presented progress and findings to the research group and others during workshops.
- Developed and optimized code using Fortran and Python, working with numerical methods and scientific computing tools for data presentation such as NumPy, Pandas and Seaborn.

## Certificates

### AWS CLOUD PRACTITIONER

Nov 2024

- Foundational knowledge of AWS cloud services, architecture, security, and pricing models. Capable of explaining the business value of AWS and operating within the AWS ecosystem.

### IBM DATA SCIENCE PROFESSIONAL

Jul 2024

- Hands-on program covering data science fundamentals, including Python, SQL, machine learning, and data visualization. Built and deployed projects using real-world datasets and industry-standard tools.

## Additional

**Language Skills:** Portuguese (Native), English (C2), German (B2)

**Technical Skills:** Python, SQL, Databricks, Power BI, Git, Hugging Face, PyTorch, SageMaker

**Interests/Hobbies:** Marathon running, language learning, digital drawing and illustration.
